RESEARCH INTEREST

NLP, Voice Synthesis, Deep Learning, Emotion Recognition, Human-Computer Interaction

EDUCATION

Korea Advanced Institute of Science and Technology (KAIST)

M.S. in Data Science

Aug. 2020 – Jul. 2022

Advisor: Uichin Lee

Handong Global University (HGU)

B.A. Mathematics and Statistics & B.A. Management (Double-Major)

Mar. 2014 – Jul. 2020

Summa Cum Laude

PUBLICATIONS

EXPERIENCE

Work Experience

Machine Learning Researcher

Okestro

Sept. 2022 – Present

Academic Experience

Interactive Computing Lab

KAIST

Advisor: Uichin Lee

Aug. 2020 – Jul. 2022

Technological entrepreneurship Lab

HGU

Advisor: Doohee Chung

Aug. 2018 – Jul. 2020

Mathematics and Statistics major

HGU

Advisor: Heonjoo Kim

Aug. 2019 – Feb. 2020

Business Information Technology Practice (Teaching Assistant)

Advisor: I-Soo Joe

HGU

Mar. 2018 – Jul. 2018

Principles of Accounting (Tutoring for foreigner)

Advisor: Hyunmo Sung

HGU

Sept. 2017 – Dec. 2017

Other Experience

Mentor, Vision in Calling | HGU

Mar. 2020 – Jul. 2020

Director, Dep. of General Affairs, Student Government | HGU

Dec. 2019 – Jul. 2020

Director, Technological entrepreneurship Lab | HGU

Jul. 2019 – Feb. 2020

Executive, Residential College of International Dormitory | HGU

Jul. 2019 – Feb. 2020

Manager, Handong English Camp | HGU

Mar. 2018 – Sept. 2018

Instructor Education Certification for foreigners | HGU

Mar. 2018 – Jun. 2018

Accountant, International freshmen orientation | HGU

Mar. 2017 – Aug. 2019

English Teacher, Global Vision Christian School | GVCS)

May. 2017 – Sept. 2017

PROJECTS

Research Projects

Emotion Recognition (Master Thesis)

KAIST

In this study, we propose a method for predicting the emotions of the speaker in the naturalistic conversation using a speaker encoder and counterpart encoder composed of CNN-LSTM deep learning networks. We used emotion-related data called K-EmoCon collected during the debate process to empirically evaluate our model. The results showed that the counterpart's speech and the physiological signals had a positive impact on predicting the speaker's emotions.

Oct. 2021 – July. 2022

Video & Speech synthesis

Deepbrain AI

We produced AI Human through voice conversion using StarGAN-VC and image synthesis using FSGAN. Through the process of analyzing various voice conversion models(CycleGAN, StarGAN-VC, StarGAN-VC2), we improved the quality of voice conversion by analyzing loss terms, number of domain classes, batch size, and iteration. In addition, the average similarity between the source video and the target video was used to facilitate video synthesis.

Sept. 2021 – Oct. 2021

Digital Therapeutics (DTx)

KAIST

We develop fundamental technologies of data-driven digital therapeutic, receptivity optimization for mobile digital therapeutic development. Furthermore, we analyze the effectiveness of digital treatments by applying causal analysis.

Aug. 2020 – Sept. 2021

Smart Mask

KAIST

We review existing types of smart masks and study what sensor data can be collected through smart masks. Also, we develop emotional and stress monitoring algorithms through smart mask sensor data.

Jan. 2021 – July. 2022

Contact Tracing

KAIST

We develop risk scoring algorithms that can be used for analysis to detect BLE contact between client devices. In addition, the need to introduce a place beacon is increasing as the number of cases infected with COVID increases just by staying in the same place without having to contact the confirmed patient directly. We also identify the coverage that place beacon can effectively send and receive signals with client devices.

Aug. 2020 – Dec. 2020

Course Projects

[KSE531] Human-Computer Interaction: Theory and Design “Step-by-step Self-reliant Thinking with CAN(Communicative Art Network)”	KAIST Spring 2021
[KSE526] Analytical Methodologies for Big Data “EFNet: Attention based CNN-LSTM Networks for Energy Usage Forecasting with External Factors”	KAIST Fall 2020
[KSE801] Special Topics in Intelligent Service Engineering (Sensor Data Science) Emotion recognition with mobile phone & wearable sensor data	KAIST Fall 2020

AWARDS AND HONORS

President Award (Top 10 World-changing Projects) HGU	2020
Best Paper Award (National Technology Policy Paper Competition) IITP & KOTIS	2019
Best Paper Award (Korea Society for Innovation Management & Economics Paper Competition)	2019
Academic Top Scholarship for Seniors HGU	2019
Academic Excellence Scholarship for Juniors HGU	2018
Academic Excellence Scholarship for Sophomores HGU	2017
Academic Excellence Scholarship for freshmen HGU	2016
